

Airplane to Land

By SCOTT HOLTZMAN

There's so much going on this week and throughout the summer that I'm going to put off my further comments on the McClelland record ban until later.

To get on to the excitement coming up, first is **The Jefferson Airplane Show** Sunday at the Coliseum. I have recommended their "Surrealistic Pillow" album several times and I hope by now that you've either bought it or listened to a friend's copy. It is one of the most completely satisfying albums I have in my collection. The reason is that every band is good. It's not one of those albums that makes you run to the record player when the third band comes up, so you can skip it.

They probably won't have their light show with them because there is audience behind them and no place to project, but they don't need it with **Gracie** out front belting out with that brassy trumpet she's got stuck in her throat. (She's good looking, too.)

I think **KILT** has one of the best balanced shows to come along in a long time. **The Pozo Secos** and **The Airplane** are both folk-rock oriented groups and **The Five Americans**, **Neal Ford & The Fanatics** and **the fever tree** are three rock groups with entirely different sounds. Don't miss this one.

Next Saturday, we have **Paul Revere & The (new) Raiders**, **Roy Head**, **Billy Joe Royal**, **Steve Alaimo** and **The Board of Directors** coming in. That will be exciting because all of the girls want to see the new members of **The Raiders**.

I talked to each of them long distance and they are very excited about the whole thing. They've been

deep in rehearsals for three weeks, learning all of the songs. That's a big responsibility, having to take the place of such an established group, but I'm sure Paul and Mark know exactly what they are doing. They've done it before. Get out there and make the new guys feel welcome.

On July 8, we have **The Mamas & Papas** coming in. Also, **Joe Tex** (June 11), **Otha Redding** (July 9), **Ray Charles** (July 16), and **Herman's Hermits** (July 22). Then, there's **Wayne Newton** (Aug 12) and **The Monkees**, but I can't announce the date at this time. How is that for a summerful of good shows? I can't wait.

The Yellow Balloon ran out of air at **The Catacombs** recently.

Buy the new **Beatles** album. There's no need to say any more about it . . . just buy it and you won't be disappointed. The only thing that has ever disappointed me about **The Beatles** is John Lennon's complete lack of taste in painting his \$42,000 Rolls Royce with psychedelic patterns and then putting dark glass in it so no one would know who was inside. Come on.

KNIZ'S MOST REQUESTED: "Girl On Girl (Don't Push Me)" by the fever tree, "9th Floor" by **The Moving Sidewalks**, "Windy" by **The Association**.

KILT'S MOST REQUESTED: "Girl On Girl (Don't Push Me)" by the fever tree, "Come On Down To My Boat" by **Every Mother's Son**, "San Francisco, Wear Some Flowers" by **Scott McKenzie**.

SCOTT'S SNEAK OF THE WEEK: Watch for it on **The Chuck Dunaway and Larry Kane Shows**—Get Him Out of Your Mind by **The Underground** (Mainstream).

Mike Knutz: fever tree

Gracie: The Airplane
